

David D. Swisher, B.Sc.
Vice President and Sr. Project Manager (Pine Point Project)

David Swisher has underground and surface mining experience in precious and industrial mineral operations, including the study of underground and surface mining techniques in Sweden. He has held positions of increasing responsibility in all facets of mining at the mine manager level. His experience includes the evaluation and implementation of mining methods, environmental, health and safety processes, maintenance best practices, operations optimization as a Six Sigma Black Belt, feasibility assessment and advanced behavioral instruction. Mr. Swisher has also successfully led numerous Labor Union negotiations to mutually agreeable results. Since joining Tamerlane in January of 2006 as Senior Project Manager, and then as Vice President, Mr. Swisher has significantly advanced the Pine Point Project. Notable project accomplishments include:

- *Planning, implementation and oversight of 2 major drilling programs;*
- *Completion of Tamerlane's Developers Assessment Report, an exhaustive 980-page environmental and socioeconomic study of the Pine Point Project;*
- *Planning, design and drafting of Tamerlane's Feasibility Study and NI 43-101 Technical Report, which were subsequently overwritten and endorsed by third-party expert consultants;*
- *Negotiation and execution of comprehensive, mutually beneficial exploration agreements with the cooperation of Deninu Kue and Katlodeeche First Nations, as well as the Hay River Metis Government Council.*
- *Successful completion of MVEIRB's environmental assessment process, resulting in a positive recommendation for the Pine Point Project.*
